

RANGE INFORMATION

BEE MODULAR RANGE

A modern take on the classic modular system which recognises the increasingly agile requirements of workplace. Futureproof and incorporating work elements such as tables, technology, planting and mobility, the range incorporates 4 options; BEE modular, BEEsettled, BEEworking and BEEcollaborative.

Elements can be combined effortlessly, with the reassurance our robust linking system will hold them firmly in position, until you are ready to reconfigure the elements should the needs of the workplace evolve. Create natural and safe divisions with panels or take a biophilic approach with planter units incorporated into the design
