# Achieve bespoke levels of on site integration without the cost implications

Everything we manufacture is to order, as such we can **tailor** our standard collection furniture lets you achieve bespoke levels of on site integration without the cost implications, creating areas which may normally be restricted by budgets if looking at a custom-made solution. Fit furniture between walls or below windows, reduce sizes to fit your floor plan or integrate with on site features.

Tailoring allows you to make up to two modifications;

- Modify the width of the design.
- Modify the height of the design.
- Upholstery in a challenging fabric.
- Alter the leg type, finish or shape.
- Adjust the upholstery detailing.

Designs requiring more than two alterations are uplifted to “Bespoke” products and costed accordingly.

- The charts to the left should be used in conjunction with the relevant design pages to establish the options available.

- When we make reference to particular timber (natural beech, natural oak, natural walnut) or laminate finishes (white, black, oak, walnut, dark oak), they refer to our standard supplied finishes only.

- We can match to a specific client specified colour, finish or material, but require either a sample or material reference.

- We reserve the right to reject a material or finish, if we feel it is unsuitable or will compromise the quality of finish on the furniture.

## TIMBER FINISHES

Timber is a natural material as such colour and grain variations may occur. All our timber is either left in it's beautiful natural colour or stained before a clear lacquer is applied.
